OUR SERVICES

Early Years

At Early Years' we work closely with parents and carers, empowering them to build the skills, knowledge and confidence to support their child in developing communication.

This is a free service developed for parents/carers to attend with their children aged 15 months–5 years. The programme focuses on behaviours, relationships and developmental play, underpinned by ABA. We tailor teaching techniques around the needs and preferences of each child.

The service offers a flexible approach, with attendance designed to fit around the timetable of each family.

Parents are supported by our experienced multidisciplinary team during this crucial time, to empower them to build skills, knowledge and confidence to:

- support their children in developing communication and language – through play, and learning essential skills that they can build upon throughout their journey in education
- and to better understand and cope with their child's behaviours that challenge.

OUR SERVICES

Post-19 Provision

Post-19 is an educational service for adults with autism aged 19-25. The service focuses on developing student's functional communication and language acquisition as well as preparing them for adulthood.

In the 2016–17 academic year we ran a pilot of the Post-19 provision with one student in our Hub in Hammersmith and Fulham. This was incredibly successful and led to us making it a permanent service in 2017. There are now over 20 students accessing the service and in November 2019 we opened our second Hub in Wandsworth.

Through an individualised personal curriculum, our students follow a programme of study that best prepares them for adulthood, focusing on the skills required for independent or supported living, training and employment, health and wellbeing and community participation.

By providing just enough support we are preparing our students for their lives after education and enabling them to have choice and control over where and how they live, what they do and with whom.

Outreach

We support Local Authorities, schools, families, and learners in overcoming the barriers that result in school placement breakdown. Autism is lifelong, and we know early intervention and the right support have a lasting impact.

- or feel empowered in your role by developing your skills and knowledge about autism

Training

We run expert face-to-face and online training for professionals, parents, families and carers. Our courses include specialist autism and behaviour analysis training. Our training is designed to boost your knowledge, skills and confidence in:
